** ARGENTINA. 28460 USB, March 13 at 2213, LU8QBK calling QRZ, CQDX. QRZ.com: ``LU8QBK Argentina flag Argentina, Marcos Miguel CASTRO, tel cel +54 9 2664254467, carpinteria san luis 5883, Argentina`` (Glenn Hauser, OK, WOR)

** ARGENTINA. 28504 USB, March 17 at 2214, LU3DK with KM7EKJ? QRZ.com: ``LU3DK Argentina flag Argentina, Claudio Hector Luna, Gral. Frias 74 Junín - BUENOS AIRES 6000, Argentina -- DON´T LET THE QSL-CARD CULTURE BE LOST!!!!`` (Glenn Hauser, OK, WOR)

** ARGENTINA [non]. 9455, Tue Mar 17 at 2305, RAE via WRMI finally back to Portuguese, and `Atualidade DX`, with continuous tango music in background. YL host. I missed first part, but talking about CFRX 6070. Then about several Denmark stations, such as Radio 208 on 1440 kHz, 5970. Which closed on 31 May 2020. Alemanha: R. Mi Amigo Internacional; Europa 24 at 0733 on 6150 via Datteln. 2309 credit Arnaldo Slaen. Despite the show name, it appears trying to be historical rather than current DX tips, mentioned several other years in the past. Multi-lingual ID reel and 2310 into next topic: anniversary of the March 17, 1992 bombing of the Israeli embassy in Buenos Aires; In 2017 this date was established as an annual memorial. Hezbollah was blamed, but still not certain who did it. 2313 switches to Spanish about this and no translation by the time I tune out. Since this is March 17, gives the impression this broadcast was axually produced today, or for airing today (Glenn Hauser, OK, WOR) See also USA: WRMI

** ASCENSION. 12095, March 13 at 0721, S2/S4 French talk about football, song. It`s BBC at 0700-0729. 12095 was a pioneering out-of-band channel like 15070, 9410, originally English only from UK sites. Now also via Oman at other hours, and also used by FEBC Manila (Glenn Hauser, OK, WOR)

** BELIZE [and non]. 28392 USB, March 13 at 2207, V31YL, a YL working W2TMR among pileups, during the WWA thing. QRZ.com: ``V31YL Belize flag Belize, Pavla "Paula" Pridalova, POB 159, Belmopan, Belize -- Paula OK2YL and Vlad OK2WX will be active from Belize as V31YL & V31WX from March 9th to 22nd; holiday style, SSB-CW. QSL via I8KHC. Paula will participate in the week-long YLWWA activity (March 9-15)`` The two Mexican WWA YLs were both still very active nearby (Glenn Hauser, OK, WOR)

** BRAZIL. 25985 LSB, March 16 at 2216, unID Brasuguese CB/freebander with reverb, beeps; while licensed Brahams are in on 10m. Another, at 2217 on 25835 LSB, yelling, reverb, beeps (Glenn Hauser, OK, WOR)

** BRAZIL. 28390 USB, March 14 at 2317, giving an S9-11 report to WN something. CQ Contest in English from Papa papa five lima - stalyit?? Strange fonetik. Finally decide he`s trying to say ``Charlie`` with 3 syllables. QRZ.com: ``PP5LC Brazil flag Brazil, FALCONS DX GROUP, Luciano Carlos da Silva "Luciano" Falcons DX Group, Rua Pedro Noberto Rosa, sc, 88317192, Brazil``. Lots of other Braz on 10m phone, but hardly any beacons from anywhere - which means the ``skip is long`` beyond N America (Glenn Hauser, OK, WOR)

** BRAZIL. 28400 USB, March 13 at 2209, PY2DCX. QRZ.com: ``PY2DCX Brazil flag Brazil, Alcindo de Oliveira, Rua Ondina Aguiar Nunes,,278, Bragança Paulista, SP 12922180, Brazil`` -- page features animated Mickey Mouse as a ham (Glenn Hauser, OK, WOR)

** BRAZIL. 28440 USB, Mar 14 at 2322, PY2BN caling CQ SAm? contest. QRZ.com: ``PY2BN Brazil flag Brazil, Antonio Carlos Rodrigues (in dx Tuka), Rua . Das Paineiras n-268 JD São Paulo, Zip

13468-060/Americana, SP, Brazil`` -- addresses written by hams themselves are often erroneous, as to spelling, capitalization, punxuation, axentuation, so assume sic as it`s not my job to fix them (Glenn Hauser, OK, WOR)

** BRAZIL. 28460 USB, Mar 14 at 2324, PY5AM calling CQ contest. In fonetix, pronounces M as ``Mike-ee``. QRZ.com: ``PY5AM Brazil flag Brazil, ADRIANO AUGUSTO COSSETI, R: AUGUSTO RIBAS, 747, PONTA GROSSA, PR, 84010300, Brazil`` (Glenn Hauser, OK, WOR)

** BRAZIL. 28490 USB, March 16 at 2211, Matt, PU1SHK calling CQDX from Rio. I thought it was PY1SHK, unfound, but DX heat/cluster matches frequency and call to a contact at 2203. Then back to QRZ.com: ``PU1SHK Brazil flag Brazil, Matheus "Matt" Miller, Campos Dos Goytacazes, RJ, Brazil`` (Glenn Hauser, OK, WOR)

** BRAZIL. 28493 USB, Mar 14 at 2323, ZZ3K calling CQ contest. QRZ.com: ``ZZ3K Brazil flag Brazil, Group "MRDX TEAM DX" HAMs, Mario Cesar LLompart, rua 14 de julho 185, Estancia velha, RS 93600420, Brazil`` (Glenn Hauser, OK, WOR)

** CANADA. 15034 USB, March 13 at 1437 UT, Trenton Military not off the air, giving time as, what else? ``1335 z``, then Shannon weather, S9 (Glenn Hauser, OK, WOR)

** CHINA. 7410, March 13 at 1446, nice SE Asian? music S9 direct. EiBi shows CRI/CGTN with two simultransmissions this hour: Japanese from Jinhua site, and Mandarin to SE Asia from Beijing site, but I am hearing only one of them. One would think they would QRM each other in Asia if really doublesending (Glenn Hauser, OK, WOR)

** CHINA [and non]. 11760, March 18 at 1356, English not RHC but `Beijing Hour`, then ``57 past the hour`` and current temps in Celsius; Aoki shows this is via Kunming for SE Asia, and // 11880 which is Kashi-Saiba, EAST TURKISTAN. I was checking for RHC, which does achieve a windhowly deadair on 15140; by 1410, RHC alone on 11760 with S9 deadair while 11880 has another hour of BJ in English (Glenn Hauser, OK, WOR)

** CUBA. 5025, March 18 at 0650, no signal from R. Rebelde, tho there had been a JBA carrier at 2314 before sunset here. Regardless of apagones, of course, it`s extremely unreliable (Glenn Hauser, OK, WOR)

** CUBA. 9710, March 12 at 0617, S5/S7 of deadair from RHC and no others found, SAWA. At 1452, no RHC on 15140, 11760; nor 11880 which is CRI (Glenn Hauser, OK, WORLD OF RADIO 2338)

** CUBA. 15140, March 13 at 1435, RHC not off the air, S6/S7 undermodulated under windhowl, but clear S8/S9 on 11760 with music, `¿Quién era yo?` (Glenn Hauser, OK, WOR)

** CUBA. 15140, March 13 at 2219, RHC still on but S9/+10 of deadair except for some windhowl. Something`s always wrong at RHC (Glenn Hauser, OK, WOR)

** CUBA. 11880, March 14 at 1534, RHC VG S9+20 into Georgia SDR, also VG modulation in Spanish as ``Cubaonline``. 11760 is off; and 15140 is JBA (Glenn Hauser, OK, WOR)

** CUBA. 11880, March 14 at 1915, RHC English with ``Ed`` talking, S9+10/20 into Georgia SDR, but suptorted! = modulation SUPpressed and disTORTED, mostly readable if you put up with it. A different kind of problem than usual. 15140 is much louder but so is the windhowl. 11760 not on. Something`s always wrong at RHC (Glenn Hauser, OK, WOR)

** CUBA. 11880, Mar 14 at 2126, RHC poorly audible in English into Georgia SDR. Evidently a nominal English hour now also at 21-22 (Glenn Hauser, OK, WOR)

** CUBA. 9710 & 11760, March 15 at 0655, S2/S3 JBA carriers, presumed RHC which usually achieves stronger deadairs. SAWA (Glenn Hauser, OK, WOR)

** CUBA. 15140, March 15 at 1930, RHC English S9+5 into Knoxville SDR, very undermod and vs windhowl, but 11880 is much louder with good mod, tho only S7/S9 (Glenn Hauser, OK, WOR)

** CUBA. 9710, March 16 at 0443, RHC S9+30 in -- Brasuguese! Where it`s 1:43 am in most of Brazil, but one or two hours earlier in the sparsely populated western timezones. SAWA (Glenn Hauser, OK, WOR)

** CUBA. NO RHC frequencies, Rebelde or CRI relays heard March 17 around 0210 on 4 thru 16 MHz, due to islandwide apagón as in the news. I don`t usually have any clear on MW, but the most obvious absence there is 530, only a JBA carrier presumably Canada (Glenn Hauser, OK, WOR)

** CUBA [non]. 11880, March 17 at 1407, discussion in American English, S6/S7, must be CRI as listed via Kashgar this hour only. Certainly not RHC, as I have been checking all their regular frequencies, and no sign of them at all as the American apagón continues. FWIW, EiBi shows RHC on 11880 between 15 and 23 only (Glenn Hauser, OK, WOR)

** CUBA. 13650, March 17 at 2314, still no signal from CRI music instead of Portuguese relay; no RHC frequencies found either but on 5025 a JBA carrier, presumably Rebelde. News reported some power was being restored by now (Glenn Hauser, OK, WOR)

** CUBA. 11880, March 18 at 2220 & 2227, RHC S9+10 of dead air direct; and 11760 S9+20 of DA plus windhowl; 15140 not on (Glenn Hauser, OK, WOR)

** CUBA [non]. 6030, 7355, 7435, 9820, March 16 at 0430, R. Martí is still on here, strongest on the 7s, weakest on the 9; but all off by 0506 check (Glenn Hauser, OK, WOR)

** CHILE. 28450 USB, March 13 at 2212, CE2WK in Spanish, working pileups. QRZ.com: ``CE2WK Chile flag Chile, Patricio, Patricio Morales, La serena, Chile`` (Glenn Hauser, OK, WOR)

** CHILE. 28495 USB, March 16 at 2214, CE3VAK, Víctor in Santiago contacting a TI. QRZ.com: ``CE3VAK Chile flag Chile, Victor M. Aranguiz M., Santiago, Chile`` (Glenn Hauser, OK, WOR)

** EAST TURKISTAN. 11880, March 12 at 1452, American English so must be CRI, discussion of Iran, S5/S6 with some horizontal & vertical flutter, CGTN Radio scheduled this hour only, 500 kW, 308 degrees from Kashgar to W Europe (Glenn Hauser, OK, WOR)

** FRANCE. 6150-6155-6160, March 14 at 2338, DRM noise S9+10. EiBi shows TDF Digital irr. this hour in French to N Africa (Glenn Hauser, OK, WOR)

** IRAN [non?]. 15750.1, March 16 at 1452, JBA carrier direct. Only 15750 listee is Iran International TV at 04-19 via XUU = unknown site per Eibi, but BULGARIA per Aoki, not in HFCC. Or since it`s off-frequency, could this be a jammer instead? (Glenn Hauser, OK, WOR)

** IRAN [and non]. 15730.08 approx., March 18 at 1447 direct, presumed Iran International TV, clandestine Persian talk. But at 1454 into UTwente, heavy bubble jamming, hard to separate and pinpoint frequencies, maybe 15730.117, 15730.299 (Glenn Hauser, OK, WOR)

** JAPAN [non]. 7450, March 16 at 0507, frequency announcement in French, S9/+10. It`s NHK via FRANCE, but all such relays are canceled as of A-26 (Glenn Hauser, OK, WOR)

** MADAGASCAR. 15440, Mar 13 at 1436, S Asian music S6/S7. It`s TWR in Urdu at 1430-1500 only, way offbeam thisaway but with that trans-equatorial advantage. Between 1230 & 1400, RB Australia on same with wide variety of Indian languages (Glenn Hauser, OK, WOR)

** MALI. 11975, March 18 at 2228, S8/9+10 of deadair to 2230* - That would be CRI French via Bamako as scheduled 2130-2230 (Glenn Hauser, OK, WOR)

** MEXICO. 1700 kHz, March 18 at 0658 Spanish, ``Super 23`` or ``26``, unlikely as ID, 0700 Mexican NA, so has to be XEPE, TUDN Deportes, Tecate BCN, 10/10 kW. There may have been another SS mixing, which would be KKLF Texas, but has been irregular; also English, WEUP: see U S A (Glenn Hauser, OK, WOR)

** NORTH AMERICA. 6979 AM, March 14 at 2332, pirate music S9/+10; 2355 announcements mention ``circa 1965``, WDWA, 970? Radio, various jingles, ``All day, Saturday``; wild DJ, WDWA, --?--, New York to 2400* sharp off. Several IDs as ``NINE!`` here which I never heard, and WVWA:
https://www.hfunderground.com/board/index.php/topic,160131.0.html
I wondered if relay or airchex of a real station? NRC AM Log has no WDWA or WVWA; and no similar 970 call in NY or anywhere (Glenn Hauser, OK, WOR)

** NORTH AMERICA, 6950 USB, March 14 at 2333, pirate music S9+10/20; March 15 at 0009, music sounds best tuned to 6950.05 USB. By March 15 at 0009, ID as ``You are listening to Mix Radio International on shortwave``, back to music, past 0044, S9+20/30 direct. Many logs here from 2148 to 0143+:
https://www.hfunderground.com/board/index.php/topic,160130.0.html
(Glenn Hauser, OK, WOR)

** NORTH AMERICA. 6925 USB, March 15 at 0044, pirate music S9+10. These say it`s Yeah Man Radio:
https://www.hfunderground.com/board/index.php/topic,160139.0.html
(Glenn Hauser, OK, WOR)

** OKLAHOMA [and non]. 5140 USB, Wed Mar 18 at *1400, another weekly OK emergency operations net, WSHM692 opening it, counting 12345, 54321, and rollcall, his name as Williams? Does not mention locations, but I insert from previous logs:
WQYW443, Beckham County;
WQZT582, Broken Arrow;
WQSY836, Byng;
WNPV700, Durant EOC, Bill answers, L&C, no traffic;
WQYW883, Moore - JBA answer;
WNUW216, OKC;
WNUW215, Ponca City EOC, Jason answers;
KNGR728, Pontotoc County;
WPFY721, Seminole EOC, Ernie answers, L&C;
WNBM839, Stillwater;
WNCH624, Tulsa;
WNBE830, Jefferson City MO, JBA Corey answers, L&C;
At 1405, any others? One unreadable. 1406 closing net until next week at same time 9 am Central. Then some brief informal QSOs between

WNBE830 & WPFY721, mentioning that Jason in Ponca City is a new one. 1407 WNPV700 Durant QSO another; it`s cold and sunny, until 1409 (Glenn Hauser, Enid, WOR)

** ROMANIA. 17790, March 18 at 1440, Romanian talk, S5/8 but considerably off-frequency minus about 17789.96 direct; WRMI not on yet. But at 1453 ito UTwente, rock music 17790.001+ to 1456* (Glenn Hauser, OK, WOR)

** SPAIN. 9690 S9+20/30, 12030 S9/+20 and 17715 S9+10/20, March 18 at 2300 REE sufficient direct on all, for token English on Wednesdays, ``live from Casa de la Radio in Madrid`` - NOT, I`ll bet, rather at original 12? UT non-SW broadcast. The usual W&M pair with heavy accents, his worse. Preview something about space display; housing is problem #1 in Spain. 2301.5 news of week starting with Pres. Zelenskiy meeting *now* [NOT] with PM Sánchez. King Felipe admits that there was abuse during the colonial period. 2306-2309, report from Beirut correspondent about situation there with Israeli attax. Apparently their only regular foreign correspondent but what other SW station has one there? (Glenn Hauser, OK, WOR)

** TURKEY [non]. 5960.000, Mar 13 at 2330, Chinese only unto UTwente and frequency too accurate to be Emirler, where something is always erroneous (Glenn Hauser, OK, WOR)

** TURKEY. 9660.018+, Sun Mar 15 at 1740, VOT English, S9+20/40 backwards into UTwente, ending news [or rather olds, since played back from 1330], song; 1745 ``always-by-your-side`` promo and `The Letterboxxe Programme`. Cemre says Ricky Hein, SD and Alokesh Gupta, India, are looking forward to new A26 frequencies, but neither called later in show. 1) Darryl? Hassal?, Natchez MS, stormy, heard 6125. 2) Andre Kuznetsov [Russian name], Riga, Latvia, listened to English. 3) Siddartha Papajarjee?, W Bengal, heard 9660; is International Women`s Day March 8 celebrated in Turkey? Yes, among some organisations. Cemre adds that women got the vote in *1934, earlier than some other countries; there are more women than men now graduating in several fields. TRT ES has twice as many women employees than men. Wishes for Eid Mubarak. 4) Miss Leela? Bell, England, heard 13635, has been listening for 6 months. 5) Mr Phil Hayward, G0PSD?, Newcastle, has been SWL for 50?/60? years since age of 14. 6) Annan M. Bayn?, of SWL club in India, reports using 14/15 receivers, mostly SDRs. 1801 closing, Eid will be Thursday. 1802 theme (Glenn Hauser, OK, WOR)

** TURKEY [and non]. 5960.004-, March 16 at 2305, no signal from VOT into UTwente. Something`s always erroneous at Emirler. But recheck at 2353 when measured, a song which could be Turkish or Turkistanish, now S9+30/40; 2355 VOT English s/off as if 1330 on 13635, something`s always awry at Ankara. Fragment of IS, just in time to pause, cut to restart IS loop now with German IDs. Emirler macht immer Fehler. 0000 March 17, s/on but hard to understand German, must be Turkish accent: something`s always awry at Ankara. Now the ChiCom understation is audible. By next check 0006, VOT finally off, clear for East Turkistan, land of imperialist ChiCom cultural genocide against Uighurs and other Moslems (Glenn Hauser, OK, WOR)

** TURKEY [and non]. 5960.002, March 18 at 2300, VOT JBA direct with timesignal, and presumably English. At 2350 into UTwente when measured, S9+35/40 into UTwente with multi-lingual ID filler reel and s/off, IS. 2356 pause and restart IS with German IDs until 2358.6*. Emirler'de her zaman bir şeyler hatalıdır (Glenn Hauser, OK, WOR)

** U S A. 257 MCW kHz, March 18 at 0636 UT, tuned to 255 USB, SW, StillWater OK near me and always JBA when operative, has CCI from another; periods almost the same so hard to separate, but last of 3 letters is C. Only fit in RNA list is one I recognize as having heard

before: 257 FWC `Wayne County` Fairfield IL, 25 watts, period 7.2 sex while SW is 6.12 sex (Glenn Hauser, OK, WOR)

** U S A. 293 MCW kHz, March 18 at 0643 UT, FBY, 50 watts at FairBurY NE, usual dominator, has CCI from another, JBA as TOR, which is 25 watts at TORrington WY (Glenn Hauser, OK, WOR)

** U S A. 341 MCW kHz, March 15 at 0633 UT, FO, 25-watt NDB `Barro`, FOrt Dodge IA. New for me. EI was EnId until defuncted a few years ago, leaving DNI DeNIson TX most likely; no longer hearing OIN OberlIN KS, nor does it survive in the RNA list. There are a few other 341s still in NAm: AA Cedar GA, CQN ChattaNooga TN, ELF Cold Bay AK 1000 watts, GF Aylesford NS, HVS HartsVille SC, SB South Bend IN (Glenn Hauser, OK, WOR)

** U S A. 410 MCW kHz, March 15 at 0637 UT, BA, 25-watt NDB 'Clifs', Columbus IN (Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2337 monitoring: confirmed UT Thursday March 12 at 0130 on WRMI 5010, S6/S8 into Costa Rica SDR following `Frecuencia al Dia`; S9+25/35 into Georgia SDR.

Also confirmed Thursday March 12 at 1730 on SW Radio Gold, Germany, 3975.000+, S9/+10 into UTwente, and not on 6160.

Missed checking Thu Mar 12 at 2330 on WRMI 5950; anyone hear it?

WORLD OF RADIO 2338 contents: (Armenia), Australia, (Bulgaria), China, Cuba, (Cyprus), Czechia, Egypt, Europe, France, Germany, Hungary, Indonesia, Iran and non, (Korea North), Korea South, (Kuwait), Malaysia, (Monaco non), North America, (Philippines), Russia and non, Scotland non, Spain, Taiwan, (Tajikistan), UK non, USA, Vanuatu, Vietnam and non; propagation outlook - (countries mentioned along with others not in order) [please disregard any unavoidable audio glitches]

0130 UT Thursday WRMI 5010 to S;
1730 UT Thursday SW Radio, Germany 3975 & 6160?;
2330 UT Thursday WRMI 5950 to NNW [NEW].

Thanks this week to Martin Gallas, Springfield IL, who says, ``Glenn, Thanks for your efforts to support Short Wave Radio all these years. Let`s hope we all live to see sanity restored to our gov`t, more specifically to the VOA, RFE, RFA etc.`` with a contribution by check on a US bank to Glenn Hauser, PO Box 1684, Enid OK 73702.

One may also contribute via PayPal, not necessarily in US funds, to: woradio at yahoo.com (Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2338 monitoring: confirmed Friday March 13 at 1300 the first SWBC, on WRMI 15770, S9+10 direct.

Also confirmed Friday March 13 at 2130 on IRRS SW via AM Italia, 1322.996+, S9 into UTwente.

Also confirmed Friday March 13 at 2205 the 2200 on WRMI 9955, S9+10/20 direct but as usual undermodulated.

Not confirmed Friday March 13 at 2331 on SW Radio Gold, Germany, 3975.002+, rather still last week`s #2337, S9/+20 into UTwente. Next:

0930 UT Saturday WRMI 7570 to WNW;
1530 UT Saturday SW Radio, Germany 6160 3975;
1530 UT Saturday WRMI 9955 to SSE [also web-, phonecast];
1700 UT Saturday WRN via WRMI 9395 to NNW;
1700 UT Saturday WRN via WRMI 7730 to NE;
1930vUT Saturday WA0RCR 1860-AM [1900/2100];
2030 UT Saturday SW Radio, Germany 3975;
2030 UT Saturday WRN via WRMI 9395 to NNW;
2100 UT Saturday WRMI 9395 to NNW;
2200 UT Saturday WRMI 9395 to NNW;
2230 UT Saturday WRMI 17790 to SSE;
2230 UT Saturday WRMI 15770 to NE;

(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2338 monitoring: confirmed Saturday March 14 unusually starting early at 1527 on SW Radio Gold, Germany, 6160.000, S8/S9 into UTwente with a lite het on the plus side; and not on 3975.

Also confirmed Saturday March 14 at 1535 the 1530 on WRMI 9955, S9+40 into Georgia SDR; ex-1630.

Not confirmed Sat Mar 14 at 1600 UT on WRN NAm stream, rather still KBSWR; nor on Eu stream, RTE Radio 1: i.e. confirming that WRN is still on standard time scheduling, despite most of NAm now on DST; not back in sync until March 29.

Confirmed Saturday March 14 at 1700 still on WRN NAm and WRMIs: 9395, S9+22 into Georgia SDR; and 7730, VP S3 into Miramar FL SDR, groundwave.

Not confirmed Saturday March 14 circa 1930v UT as now scheduled on WA0RCR, 1860 AM, MO; not enough daytime signal into any of closest remotes.

Confirmed Saturday March 14 at 2050 the 2030 on SW Radio Gold, Germany, 3975 into Barney`s Bedford recommended UK SDR; S9+5/15 into UTwente on 3975.001+.

Also confirmed Saturday March 14 at 2126 the 2100 on WRMI 9395, S9+30 into Georgia SDR; also on WRN Europe stream.

Not confirmed Sat Mar 14 at 2200 on WRMI 9395, rather ``OTH Radio, powered by Icom``, as now shown on the System G sked.

Confirmed Saturday March 14 at 2243 the 2230 on WRMI 15770, S9+15/20 into NW0Q IL remote, JBA? on 17790.

Barely confirmed Saturday March 14 at 2244 the 2230 on WRMI 17790, JBA S7/S9 into Georgia SDR; JBA S3/S4 into `Brasila` SDR where it`s aimed.

Also confirmed UT Sunday March 15 at 0230 on WRN North America stream; from March 29? or April 5 will shift to 0130 UT.

Also confirmed UT Sunday March 15 starting at 0412 the 0315v on WA0RCR, 1860 AM, MO, S8/S9 into N9AZZ remote, very late after ARRL

news finished, a quarter hour nominal 0300, pushed late by overtime or overlate Houston Hamsat before that. Next:

Would anyone already awake at 0730 and/or 1130 Sunday please check whether WOR is still appearing on all these WRMI frequencies? Tnx.

0130 UT Thursday WRMI 5010 to S;
1730 UT Thursday SW Radio, Germany 3975 & 6160?;
2330 UT Thursday WRMI 5950 to NNW [NEW].
(Glenn Hauser, OK, WOR)

** U S A. WORLD OF RADIO 2338 monitoring: ``World of Radio heard this Sunday {March 15} at 0730 on 5850 7570 7730 and 7780, Nothing heard on 5950 (via several web-receivers) -- Jean-Michel Aubier, France``

``My findings on the 1130 airing of World of Radio on WRMI, on March 15, found: 7570 was just open carrier, and 7780 had a gospel program in progress. Joe Hanlon, NJ`` -- Xmtr sked shows both on WRN during this hour, but the System E WRN grid itself shows 9395 only - guess we should check that too. Last week March 8, first day of stupid DST, 7570 was also DA, but WOR was on 7780. WOR remains on WRN at 1130 Sundays, so if WRMI put WRN on at all that time, would be WOR. Next:

2000 UT Sunday IRRS SW via AM Italia 1323;

2330 UT Thursday WRMI 5950 to NNW [NEW].
(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2338 monitoring: Confirmed Sunday March 15 at 2000 on IRRS SW via AM Italia, 1322.996+, S9 into UTwente.

Also confirmed Sunday March 15 at 2100 on WRN Europe stream.

Also confirmed Sunday March 15 at 2230 on SW Radio Gold, Germany, 3975.001+, S8/9+5 into UTwente.

Also confirmed Sunday March 15 at 2300 on WRMI 9395, S9+15 into Knoxville SDR.

NOT confirmed Sunday March 15 at 2330 on WRMI 9455, rather like last week cut to S9+10/20 dead air into Knoxville after Wavescan, 2350 lead-up to resuming at top of hour!

Confirmed UT Monday March 16 from 0305.2 on Area 51 webcast, after WBCQ 5130 cut off JL who was running over, not gotta go until 0304. BTW, 7490 at that hour was getting only OTH radar into NH SDR.

Confirmed Monday March 16 at 2030 on SW Radio Gold, Germany, 3975.001-, S9/+10 into UTwente. Next:

0330 UT Tuesday WRMI 7780 to SW;
1300 UT Tuesday WRMI 9955 to SSE [also web-, phonecast];

0130 UT Thursday WRMI 5010 to S;
1730 UT Thursday SW Radio, Germany 3975 & 6160?;
2330 UT Thursday WRMI 5950 to NNW [NEW].
(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2337 monitoring: ``5010. Thu, Mar 12, 2026. 0139-0159, WRMI-World of Radio, Okeechobee-FL, in English to Caribbean/CIRAFs 10-12. WOR, DX program presented by Glenn Hauser. Poor reception: 35432.JRX (Jose Ronaldo Xavier, Cabedelo-PB, Brazil, Receiver Tecsun S-2000, Antenna Longwire 10m)``

WORLD OF RADIO 2338 monitoring: confirmed UT Tuesday March 17 at 0030 on WRMI 7780, S9+15/20 into Georgia SDR.

Also confirmed Tuesday March 17 at 1400 on WRMI 9955, S9+10 direct.

Also confirmed Tuesday March 17 at 1500 on WRMI 9955, S7/S9 direct.

Also confirmed Tuesday March 17 at 2100 on IRRS SW via AM Italia, 1322.996+, S8 but noisy into UTwente. Next:

0030 UT Wednesday SW Radio, Germany 3975;
0030 UT Wednesday WRMI 9395 to NNW;
2030 UT Wednesday SW Radio, Germany 3975;
2100 UT Wednesday WBCQ 7490v to WSW;
2330 UT Wednesday WRMI 9395 to NNW;
0130 UT Thursday WRMI 5010 to S;
1730 UT Thursday SW Radio, Germany 3975 & 6160?;
2330 UT Thursday WRMI 5950 to NNW [NEW].
(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2338 monitoring: confirmed UT Wednesday March 18 at 0031 on SW Radio Gold, Germany, 3975.001+, S7/S8 but noisy into UTwente.

Also confirmed UT Wednesday March 18 at 0030 on WRMI 9395, S9+20 into Knoxville SDR.

From SW Radio, Germany: ``FYI: All of today`s shows on 3975 are canceled, as we had tx failure earlier on at around 16:30 UT. So no airing of WOR at 20:30 UT [Wed Mar 18]. Hopefully I manage to drive to the tx site tomorrow to fix the problem. - Anyhow, I think no one will notice - lol. Cheers for now, Andy`` - so I did not even check it.

Confirmed Wednesday March 18 at 2123 the 2100 on WBCQ, 7490 -36 Hz = 7489.964 into Maryland SDR.

Also confirmed Wednesday March 18 at 2334 the 2330 on WRMI 9395, S9+35 into Georgia SDR, but with noise QRM from the plus side, like jamming? R. Farda via Kuwait now on 9390 might be the target, but it`s not jammmed, while adding ACI to WRMI from the other side! Next:

0130 UT Thursday WRMI 5010 to S;
1730 UT Thursday SW Radio, Germany 3975 & 6160?;
2330 UT Thursday WRMI 5950 to NNW [NEW].

Thanks this week to Martin Gallas, Springfield IL, who says, ``Glenn, Thanks for your efforts to support Short Wave Radio all these years. Let`s hope we all live to see sanity restored to our gov`t, more specifically to the VOA, RFE, RFA etc.`` with a contribution by check on a US bank to Glenn Hauser, PO Box 1684, Enid OK 73702.

One may also contribute via PayPal, not necessarily in US funds, to: woradio at yahoo.com (Glenn Hauser, OK, WOR)

** U S A [and non]. ``Some recent software issues have caused World of Radio to be broadcast at the wrong times. We're working on it and sometimes we live stream it. Hopefully all will be resolved by the UK clock change day on March 29th. 73's Gary Drew Worldwide 🌐

The latest Glenn Hauser's World of Radio now available on demand from the Laser Gold page of our website:
Laser Gold | Laser International
https://www.laserinternational.co.uk/laser-gold

The gold standard for classic hits with the spirit of Laser 558. Happening every week. It's all good. New website new future.
Laser International
https://www.laserinternational.co.uk/

We are Laser Hot Hits the shortwave legend broadcasting free radio on the internet 24 hours a day with classic hits and oldies. Global and regional outlets are available on AM, FM and DAB`` (Glenn Hauser, OK, WOR)

** U S A. 9930, March 16 at 2207 as I happen to bandscan across here, no signal from WTWW, but instantly cuts on with S9+40 of TOMBS (Glenn Hauser, OK, WOR)

** U S A. 5085, WTWW update early UT March 17 from George McClintock: still can`t get it to work, after installing a new tube. Will keep messing with it, awaiting consultant, who is ex-Continental and made the transmitter, to return from Vietnam. There was a burned-up shroud around the tubes, blackening. Checked the tube sockets and they seem to match. Another $1200 tube did not work and surprisingly the seller

refunded his money. Got two plungers costing $6000 each (Glenn Hauser, OK, WOR)

** U S A. Bob Biermann replies to me about the delay getting WTWW 5085 back on air: ``The truth is the number of us that can work on these transmitters shrinks everyday. It is beyond critical. Last week I needed to call Continental Electronics for a part for WRMI. Continental is the last remaining US Shortwave transmitter manufacturer. Nobody would answer the phone. I tried for several days. I hear they may be exiting the SW sector. That means no more custom parts. That will leave only China, India, and a very expensive European company with a three year lag time`` (Glenn Hauser, OK, WOR)

** U S A. 9955, March 12 at 1457, S4 of dead air from WRMI direct; also at 1549 into Georgia SDR, S9+30/35 of dead air. I notified Jeff White in case he haven`t noticed. Still DA until cut off air circa 1655* (Glenn Hauser, OK, WOR)

** U S A. 9955, March 13 at 1444, WRMI not off the air, but undermodulated S8/S9 talk (Glenn Hauser, OK, WOR)

** U S A. 17790, March 16 at 2220, zero signal direct from WRMI-7, leaving 17715 Spain the OSOB; while 15770 WRMI-9 is nominal (Glenn Hauser, OK, WOR)

** U S A. 9455, Mon March 16 at 2307, WRMI-11 in Portuguese, so RAE relay is back to that after excursions to Chinese, Japanese, Spanish. Let its S8+30/40 into Georgia SDR run in background and did not notice exactly when it went silent, but at 2350 came to life with the IS/ID, ToH leadup as if just signing on. Same mixup we`ve been getting on Sundays, instead of previously scheduled WOR at 2330 (Glenn Hauser, OK, WOR)

** U S A. 9455, March 18 at 2300, VORW International on WRMI as on Wednesdays only instead of RAE relays. But by 2339 check, dead air again at S9+40/50 into Georgia SDR, silencing the second half of VORW, just as it has been blocking WOR at 2330 Sundays. When will WRMI fix this? (Glenn Hauser, OK, WOR) see also ARGENTINA [non]

** U S A. 5130 -56 Hz = 5129.944, March 13 at *2355, WBCQ cuts on with `The Planet` IS & ID reel, S9+10/20 with flutter into K1VL Vermont remote. Since they bothered to turn it on, probably bodes well for a *new* `AAAWWW` after a month of repeats. No signals on 3265, 6160 or 9330, but 7490 -53 Hz = 7489.947, with FKB is S9+10/20, also with flutter. K-index is 5.67, with G2 geomag storms. Watch the Auroral Oval.

But I start listening to the 7490 stream instead, which is running several sex behind 5130 as WTO theme starts at 0000 UT Sat Mar 14. Opening talkover: ``Tickling the grids, that`s what we do...``. By 0003, 6160 - 78 Hz = 6159.922 is also on with flutter at S9+15; nowhen else? Starts reminiscing about the old days with cart machines, etc.; finally at 0023 datestamp as 13th of March YOOLF 2026, and trimulcasting, on 7, 6 and 5 MHz. Explains vacuum tubes, etc. They still try to ``emphasize the analog``. ``the last holdout of true analog communications``. 0030 complains that dark skies are being ruined by more and more satellites, as in time-lapse photo we can`t see. Posts on X, TicToc, Truth[sic] Social, FB but warns not to get addicted to those. 0038 tune. 0042 old piece by a Canadian lamenting that other countries are not helping out America in times of need - by Byron Mack[?]. 0046 reads a Trump T-S post boasting about attacking Iran.

0052 about the SuperStition situation, 9330. Expensive to run, so still trying to get a new client, for 6, 12, 18+ hours a day, as WLC

is going otherwise. Have had to lay off lots of staff, electric rates have doubled in New England. Planned to put Hal Turner on it in a 6-hour block Saturday noon-6pm ET, but not there yet. Transmitter needs some repairs but AW is still in Deland of Fla. Ampegon antenna has 16 bays; max ERP of 500 kW is something like 300 megawatts where aimed. 0055 some email. 0058 prayer. At 0100, 6160 plays s/off, 5130 playing some other music. And by 0101, 7490 is starting `High Voltage`. No such show on websked at
http://wbcq.com/schedule/index.php?fn=sked&freq=7490
which does show a 4 hour difference between UT and local but still labels it EST! on every line instead of EDT. I thought Hal Turner had gone away? Still on there at 0100 UT Tue-Sat (Glenn Hauser, OK, WOR)

** U S A. 12160, Sat Mar 14 at 1700, new time for `The Talking [sic] Machine Show` on WWCR-2, but reception is VP direct and to various NAm remotes, with K=5 and G1/G2 geomag storms. We listen to it anyway via stream, but the Windows Media Player just keeps repeating the greeting and nothing else; we can hear it via the alternative Web Player,
http://wwcr.gsradio.net:3863/index.html?sid=1
but not via
https://www.gsradio.net/shows/WWCR_PLAYERS/wwcr2.html
This is very strange (Glenn Hauser, OK, WOR)

** U S A. 5890, UT Tue March 17 at 0202, surprised to hear WWCR-4 on the air now; maybe it`s been back for a while, but only scheduled UT Tue-Sat at 02-04 when I haven`t been checking much. It`s Truth House this hour and guess what, the convicted and deceased Tony Alámo at 03-04! per sked. 4840 & 5935 are also on air, so WWCR is back to full 75% with #1 unit still closed down voluntarily. This also possiblizes the leapfrog mixing product on 5980 if not in reverse on 5845 (Glenn Hauser, OK, WOR)

** U S A. 7505, March 15 at 0629, WRNO still on with S9 gospel? rock (Glenn Hauser, OK, WOR)

** U S A. Re: "UNIDENTIFIED. 1070, March 15 at 0644 UT, `Northstar Bank` mentioned. Appears to be only? all over Michigan, but no 1070s there; in the continued silence of KFTI Wichita (Glenn Hauser, OK, WOR)"

``North Star Bank in Estherville, Iowa is a longtime sponsor on KILR, which has been getting out suspiciously well the past couple years. They've been solidly under KNX on many of my recordings at the Border Inn. 73 Tim Hall``

KILR is U4, supposedly only 250/48 watts! Estherville is almost at the Minnesota border, east of Sioux Falls. Day pattern is slightly lopsided favoring the southwest, night pattern more so. In this Tim Hall report from 2025y, times presumably EDT so 1159 UT:

``1070 KILR IA Estherville – 10/27 0759 – Steady signal, way under KNX, with ID: “News Talk 10-70 and 97.3 FM, KILR Estherville” into Town Hall News. Listed 48 Watts nights (directional) or 15.3 Watts PSRA (non-directional). 1040 miles``

Then I also get these tips from Saul Chernos, Ont.: ``North Star bank also in Minnesota. There’s also in Iowa including Estherville`` (Glenn Hauser, OK, WOR)

** U S A. 1700 kHz, March 18 at 0700 UT, ``94.5`` in English mixing with one or two Spanish. So that`s rarely heard WEUP, Huntsville AL, ``Worship 94.5`` per NRC AM Log. 94.5 is a mere translator, W233BR, yet heading a group also including 1600 and 1190 stations. WTFDA FMDB shows W233BR relaying WEUP 1700 with 250 watts at Moores Mill AL, ``The Heritage Station 1700 AM``, not Worship 94.5, outdated? Moores

Mill is just NE of Huntsville (Glenn Hauser, OK, WOR)

** VANUATU. 9960, March 12 at 0618, R. Vanuatu JBA S4/S6, so extended later here rather than 7260 (Glenn Hauser, OK, WORLD OF RADIO 2338)

** VANUATU. 7260, March 13 at 0700, RV on here with Bislama talk, S6/S7 direct. Last night they were still on 9960 at 0618, so switching now at 0700? (Glenn Hauser, OK, WOR)

** VENEZUELA. 28475 USB, March 17 at 2213, YV4EBD calling some more DX station. QRZ.com: ``YV4EBD Venezuela flag Venezuela, Edgardo "ED" Perez,
Valencia 2001, Venezuela`` (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 760, March 17 at 0211 UT, something in Spanish almost as strong as WJR, but no time to follow it. Rather than Cuba, most likely XEABC near Mexico City among the six XEs, if not 10 kW daytimer KMTL Arkansas (Glenn Hauser, OK, WOR)

UNIDENTIFIED. ``Hi Glenn, A while back you mentioned picking up a signal somewhere around 1441.65. This signal is present on many of my Border Inn recordings from last October. It is stronger on my more northerly wires, but conditions that weekend strongly favored northern signals, so that not be a reliable clue.

More importantly, I have just noticed that there is a companion signal on 1458.35 -- about the same signal strength as 1441.65, and stronger on my more northerly wires. This would seem to imply that we're dealing with spurs from a station on 1450.

On the recording I'm currently reviewing (aimed 56 degrees at Minnesota), the stations that were coming in on 1450 were KBFS, KEYY and KJCV. Of course, there may have been others present that didn't ID.

KBFS is all over my recordings from last October -- even on wires aimed way south of them. They would probably be the first station I would suspect. KJCV is semi-regular and KEYY (despite being one of my closest signals on 1450) is only an occasional catch.

I'll try to gather a bit more data, such as what time the signal finally goes away each morning, and what stations were present on 1450 when the spurs were strongest. I'm well behind on reviewing last October's recordings, so it may be some time before I can assemble enough information to be useful. 73 Tim Hall``

Great, your attn to these things is much appreciated! And the KILR reply. I tune primarily in USB, so next time I get 1441+ I must try 1460 minus on LSB. KBFS = Belle Fourche SD; KEYY Provo UT; KJCV = Jackson WY.

In fact I check this out soon, March 16 at 0432 UT on the R75: 1441.61 is indeed accompanied by a matching JBA carrier about 1458.39. Then I try to get a rough bearing on the handheld PL-660, and 1441.61 seems to peak more from NW than NNW, so that points to UT or WY rather than SD (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 4095, March 13 at 0712, sweeps upward are JBA. This would be DW - `Desert Whooper` - had been trying to hear it all winter, but not until now, had assumed it were gone (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 9490, March 17 at 0206, huge S9+40 open carrier direct, surely too strong for ISS in case on by mistake with no R. República feed? It`s the SSOB exceeding 9395, 9690, 9700, 9955! Still at 0245

S9+50 into Georgia SDR, but seems to go off about 0258 -- no, a weaker deadair is still there, only S7/9+15 past 0313 (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 9490, March 17, originally very strong open carrier as in last report from 0206, finally cuts off air about 0359* into Georgia SDR.

Another 9490 report, from JRX in Brasil: ``FRANCE, 9490. Wed, Mar 11, 2026. 0209-0220, Radio República, Issoudun-F, in Spanish to Cuba. Good signal, S9 +20, dead air! The transmission problem continues. CLA Station.`` Unclear how he can be certain of such identity (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 13735-13740-13745, March 13 at 2221, DRMish noise of typical bandwidth but sounds strange. Nothing scheduled now; however, TDF is on 13740 AM at 18-20; and Aoki reminds us that WINB used to DRM on 13740, but only between 0730 and 1000, and we know that ended years ago! (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 13755-13760-13765, March 12 at 1450, S7/S8 of DRM noise. HFCC & EiBi have TDF Issoudun, 100 kW at 280 degrees for WEu, but at 1300-1400 only (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 21520, March 16 at 1449, JBA carrier and the OSOB. Nothing listed now (Glenn Hauser, OK, WOR)
